Description

The Ingo Maurer Eclipse Ellipse wall light emits indirect light to the wall behind. The inclination of the round lamp body can be adjusted via a ball joint. In addition, it is possible to adjust the position of the small disc on the lamp body by turning and tilting. In this way, different light and shadow reflections can be created on the wall and on the lamp itself. Included is an LED with 12 watts as well as 2,700 Kelvin extra warm white. The Ingo Maurer Eclipse Ellipse is dimmable by the customer.
