

Anglepoise

Original 1227 Lamp with Wall Bracket

Oberfläche

- chrome
- noir
- gris
- blanc

Technical details

Pays de fabrication	 Royaume-Uni
fabricant	Anglepoise
concepteur	George Carwardine
année	2012
protection	IP20
Contenu de la livraison	LED 230 Volt
aptitude de tension	110 - 240 Volt
Projection en cm	88
matériel	aluminium, Fonte, Textile
longueur de câble	200 cm
atténuation	dimmerable sur place
base/version	E27
Transférabilité	sur la conduire
Puissance (max. Watt)	20 Watt
LED	y compris
Diamètre de l'ombre	14 cm
Hauteur de Abat	16 cm
remplacement des ampoules :	sur le site meme
répartition de la lumière	directement
Dimensions	H 55 cm

Description

The Anglepoise Original 1227 Lamp with Wall Bracket is a wall lamp with a movable articulated arm. Thanks to proven tension spring technology, the articulated arm can be readjusted again and again. Cause of this, it also retains any set position. The wall mounted lamp is given additional flexibility by the rotatable and tiltable lamp shade. Both the lamp shade and the articulated arm are made of aluminum. The wall bracket is made of cast iron. Industrial designer George Carwardine developed the tension spring technology used in this lamp back in the 1930s. Since then it has been used in numerous Anglepoise lights. The surfaces bright chrome, linen white, dove grey and jet black are available. The lamp can be connected via a cable with plug. An on/off switch is integrated on the 200 cm long textile braided cable. The wall light can be operated with LED retrofit lamps or compact fluorescent lamps. A table base in the matching surface is included in the scope of delivery.
