Technical details

Pays de fabrication	 Allemagne
fabricant	Nyta
concepteur	jjoo design
année	2015
protection	IP20
Contenu de la livraison	Leuchtmittel/Bulb
aptitude de tension	110 - 240 Volt
Diamètre en cm	20
matériel	aluminium, Textile
longueur de câble	300 cm
réglage de la hauteur	hauteur déterminée
atténuation	dimmerable sur place
base/version	E27
Puissance (max. Watt)	70 Watt
canopée Dimensions	12 cm, hauteur 9 cm
répartition de la lumière	directement
Dimensions	H 17 cm Ø 20 cm

Description

The Nyta Tilt Globe is a pendant lamp with a rotating and swivelling lamp shade. The shade can be rotated along an opening on the shade by 360 degrees and tilted by a maximum of 125 degrees, so that the light distribution can be changed at any time. The lamp shade has a diameter of 20 cm as well as a height of 16.5 cm and is made of matt lacquered aluminum. The lamp is available in the surfaces white, black and grey. Inside the shade is white in all versions. The canopy is always in the matching surface to the shade. The pendant light is offered in the cable colours white, black, grey, red, light green or light blue. The lamp is supplied with a 300 cm textile cable as standard, a 500 cm cable is also available on request. The cable can be shortened if necessary. The pendant lamp can be dimmed by the customer and can be operated with LED retrofit lamps or halogen lamps.
