Description

The Marset No8 wall lamp has a flexible arm that can be repositioned at any time. The arm is covered with black braided textile. At the end of the lamp arm there is a lamp head made of twisted oak or wenge wood. The head is processed by hand so that each lamp is unique. The wall bracket is made of black lacquered metal and has a diameter of 11.5 cm as well as a depth of 3.3 cm. A toggle switch is integrated on the wall bracket. An LED with a colour temperature of 2,700 Kelvin extra warm white is included as a light source.
