Description

The Oluce Berlin 722 can be used as a wall or ceiling lamp. It has an anodized brass shade with a diameter of 50 cm. The diffuser made of sandblasted wire glass ensures that the emitted light is glare-free. The wired glass used for the lamp is produced by continuous casting or rolling. The ceiling and wall lamp emits direct light as well as room light at the same time. Four E27 LED retrofit lamps are used as illuminants.
