Aimei

Technical details

| | |
|--|---|
| Pays de fabrication |  Espagne |
| fabricant | Arturo_Alvarez |
| concepteur | Arturo Alvarez |
| année | 2019 |
| protection | IP20 |
| Contenu de la livraison | LED |
| aptitude de tension | 230 - 240 Volt |
| matériel | acier, bois, verre |
| couleur de câble | transparent |
| réglage de la hauteur | hauteur déterminée |
| atténuation | dimmerable sur place avec commande gradateur de phase inverse |
| Puissance en Watt | 8 W |
| LED | y compris |
| Flux lumineux en lm | 960 |
| La température de couleur en Kelvin | 2.700 extra blanc chaud |
| canopée Dimensions | 12 cm |
| hauteur totale | 200 cm |
| Dimensions | H 80 cm B 80 cm L 80 cm |

Description

The Arturo Alvarez Aimei pendant lamp is made of ash wood. Ash wood is a particularly flexible and versatile material. By means of handcrafted processes, curved and durable surfaces can be produced using this resistant and high-quality material. A spherical glass diffuser reduces glare and spreads the emitted light homogeneously through the spaces between the wooden rods into the room. The lamp is a total of 80 cm high. It has a length and a width of 80 cm each. The pendant lamp is attached to a transparent cable. The nickel-plated steel canopy has a diameter of 12 cm. Including the suspension, the lamp has a total height of 200 cm, the cable can be shortened if required. The light source integrated in the Aimei is an LED with a colour temperature of 2,700 Kelvin extra warm white, which can be dimmed on site with a trailing edge phase dimmer. The pendant lamp is also available on request with a colour temperature of 3,000 Kelvin warm white. A DALI dimmable version is also available on request.
