

Vistosi

Bolle LT P

Oberfläche

- transparent
- blanc

Technical details

Pays de fabrication	 Italie
fabricant	Vistosi
concepteur	Barbara Maggiolo
année	2003
protection	IP20
Contenu de la livraison	Leuchtmittel/Bulb
aptitude de tension	110 - 240 Volt
matériel	crystal verre, métal
base/version	G9
Transférabilité	sur la conduire
Puissance (max. Watt)	60 Watt
Diamètre de l'ombre	16 cm
Dimensions	H 19 cm

Description

The Vistosi Bolle LT P is a table lamp with a lamp shade made of mouth-blown crystal glass. The glass is processed using the Balaton technique, in which air bubbles are enclosed into the glass. This creates a special texture which multiplies the reflections on the surface of the glass. In addition, a halo effect appears on the table on which the lamp stands. The lamp shade is available in crystal transparent and white surfaces. The lamp base is made of satin nickel-plated metal. Altogether the Bolle LT P is 19 cm high and has a lamp shade with a diameter of 16 cm. An on/off switch is integrated on the supply line. The table lamp can be operated with halogen lamps or LED retrofits.
