## Description

The frame structure of the Serien Lighting Reflex2 Ceiling M150 contains the LEDs, whose light radiates onto a prismatic reflector surface, whereby it is reflected into the room absolutely glare-free. The reflector is available in matt white, gold, silver or white. Each reflector provides a different lighting effect for this ceiling light. The Reflex2 Ceiling M150 has a colour temperature of 2700 Kelvin extra warm white.

On request, the lamp is also available with 3000 Kelvin warm white or with Tunable White technology. With Tunable White technology, the light can be controlled from incandescent warm to cool white. On request, the Serien Lighting Reflex2 Ceiling M150 is also available Dali dimmable or with Casambi module.
