Description

The Serien Lighting Draft Suspension Rope M pendant light can be individually set in total height between 15 cm and 195 cm when it is mounted. The hand-blown glass of the Draft Suspension Rope M is offered in the colours clear, brown and blue. A conical reflector made of opal acrylic glass is integrated inside the glass. This reflector directs the light directly downwards and diffuses it softly and evenly all around.

The Draft Suspension Rope M has a glass with a height of 26 cm and a diameter of 34 cm. The pendant lamp is supplied with a colour temperature of 2,700 Kelvin extra warm white. On request, it is also available with the dim to warm function or 3,000 Kelvin warm white. When dimmed, the lamp with dim to warm function imitates the dimming behaviour of classic incandescent lamps, which is perceived as pleasant. When dimmed, the colour temperature changes from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white. Besides this lamp, Serien Lighting also offers the Draft Suspension Rope S with a shade height of 21 cm and a diameter of 26 cm.
