Flux lumineux total en LM	5.215
Dimensions	H 183 cm

Description

The Knapstein ALMA-L emits light upwards as a ceiling floodlight. In addition, this lamp has a rotating and swivelling reading arm. The lamp head at the end of the reading arm can be swivelled independently of the arm via a joint. The Uplight of the ceiling floodlight and the light of the lamp head can be switched separately and also infinitely dimmed. The push button dimmer for the ceiling floodlight is located on the light rod. The push button dimmer for the light head is integrated in the head itself. The floor lamp ALMA-L is available in the surfaces brass matt, nickel matt and nickel-chrome matt. The glass of the ceiling floodlight is made of opal, matt white glass. The lamp is also offered without lamp arm.
