Description

The Foscarini Aplomb Outdoor Sospensione can be used as an outdoor pendant lamp. The lamp is supplied without canopy and depending on the connection possibility, it has a protection degree of IP44 (with plug connected) or IP65 (with clamp). With protection class IP44, it is protected against splash water on all sides and solid foreign bodies with a diameter of at least 1 mm. With IP65, the lamp is dust-tight and protected against water jets from any angle. A cable reel kit as an extension for the cable is available on request. The cable can be shortened if required. The Aplomb Outdoor Sospensione is available in Pompeian red, sage green or light grey. Its lamp shade is always made of concrete. The light source is an integrated LED, which can be dimmed with a trailing edge phase dimmer on site.
