

Loom Design

Una

Technical details

| | |
|--|--|
| Pays de fabrication |  Danemark |
| fabricant | Loom Design |
| protection | IP54 |
| Contenu de la livraison | LED |
| aptitude de tension | 230 - 240 Volt |
| Profondeur en cm | 10 |
| matériel | aluminium, polycarbonate, verre de protection |
| angle du faisceau | 0 - 100 degrees |
| Puissance en Watt | 9 W |
| LED | y compris |
| Flux lumineux en lm | 375 |
| La température de couleur en Kelvin | 2.700 extra blanc chaud |
| Dimensions | H 15 cm B 14 cm |

Description

The Loom Design Una emits light simultaneously to the front, below and above. At the top and at the bottom, the outdoor wall lamp has rotatable covers with which the beam angle of the light can be adjusted between 0 and 100 degrees for both directions. This allows differently shaped light cones to be emitted onto the wall at the top and bottom. With an opal diffuser made of polycarbonate, the light emitted to the front is glare-free. The lamp is made of black die-cast aluminum. It has a width of 14 cm and a height of 14.5 cm. The depth is 10.4 cm.

An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as illuminant. The clear safety glass in front of the LED is particularly shock and impact resistant and insensitive to temperature differences. With the IP54 protection rating, the Una by Loom Design is well suited as an outdoor lamp, as it is protected against dust and splashing water on all sides.
