Description

The LDM Wyng Wall 6 Dot can be used as a wall or ceiling lamp. It has a hexagonal shape and is 60 cm wide and long. Its lamp shade consists of transparent acrylic glass and is printed with a precise dot pattern on the inside. The integrated LED emits 80 % of its light directly to the front and 20 % indirectly through the dot screen printed motif to the wall or ceiling.

The Wyng Wall 6 is offered with a wall bracket in white, silver metallic and bronze surfaces. The wall and ceiling lamp is available in two versions: dimmable on site with a trailing edge and / or leading edge phase dimmer or with an integrated Casambi module. With a Casambi module, it is possible to operate the lamp by smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the possibility of regulating several suitable lamps in groups. On request, the lamp is also available DALI dimmable. In addition to this Wyng, a wall and ceiling lamp with a square pattern on the acrylic glass is also offered from the lamp family.
