

# Steng

## Long Brigg 1

### Oberfläche

- aluminium
- blanc

### Dimmbarkeit

- gradable avec variateur à coupure de phase et à commande de phase
- avec module Casambi

### Farbtemperatur in Kelvin

- Dim to warm
- 2.700 extra blanc chaud
- 3.000 blanc chaud

## Technical details

<b>Pays de fabrication</b>	 Allemagne
<b>fabricant</b>	Steng
<b>concepteur</b>	Peter Steng
<b>concepteur 2</b>	Andreas Steng
<b>protection</b>	IP20
<b>Contenu de la livraison</b>	LED
<b>aptitude de tension</b>	230 - 240 Volt
<b>Profondeur en cm</b>	20
<b>matériel</b>	aluminium
<b>Puissance en Watt</b>	20 W
<b>LED</b>	y compris
<b>Indice de rendu des couleurs</b>	>90
<b>Flux lumineux en lm</b>	2.960
<b>Dimensions</b>	H 6 cm   B 30 cm

## Description

The Steng Long Brigg 1 is a wall lamp with a width of 30 cm and a height of 6 cm. The depth of the lamp is 20 cm. The light is emitted from the lamp asymmetrically upwards and thus also into the room. Part of the light radiates onto the wall behind the lamp and is reflected from there into the room. Thanks to the high-quality reflector technology, the light emission is glare-free.

The Long Brigg 1 is available in the surfaces aluminum and white matt. All surfaces have a fine structure. Other RAL colours are also available on request. Depending on the version, the integrated LED has an output of 20 or 23 watts and it is characterised by very good colour rendering with a high colour rendering index of Ra >90 or 95.

The Long Brigg 1 is offered in two versions: dimmable on site with a trailing edge and / or leading edge phase dimmer or with an integrated Casambi module. With a Casambi module, the lamp can be operated by smartphone or tablet using the Casambi app via Bluetooth. Casambi technology also offers the option of switching and dimming several suitable lamps separately in groups or switching the lamp at specific times via a timer. On request, the lamp is also available with 1-10 volt and DALI dimmable.

The Long Brigg 1 is offered with three colour temperatures: with a colour temperature of 2,700 Kelvin extra warm white, with 3,000 Kelvin warm white or with Dim-to-warm technology. With the Dim-to-warm function, the light colour of the LED changes to a warmer tone when dimmed (from 3,000 Kelvin warm white to 1,800 Kelvin extra warm white). The two lamps with 2,700 or 3,000 Kelvin each have an LED with an output of 20 watts and a colour rendering index of Ra >90, the lamp with Dim-to-warm technology has an output of 23 watts and a colour rendering index of Ra 95. In addition to this lamp, Steng also offers the Long Brigg 1 Pro and the Brigg P1 Power Tools with more powerful LEDs.
