### Description

The Betec Acus has a flexibly adjustable lamp arm that can be tilted in any position. The integrated LED light source runs almost the entire length of the lamp arm. Wherever vertical or horizontal illumination is desired in a room, this modern floor lamp is an expression of innovative elegance. The lamp can be used as office, object, shop window or stand lighting for modern sculptures and large paintings. The Acus by Betec has a touch dimmer on the lamp arm. A short touch on the metallic surface of the lamp switches the light on and off. A longer touch is used for dimming and changes the brightness from 0 to 100 %. Depending on the orientation of the lamp arm, the floor lamp is a maximum of 215 cm high and has a surface in glossy chrome.
