Julii Wall Lamp

Wandhalterung Oberfläche

- Maron
- Hetre
- blanc

Technical details

Pays de fabrication	 Allemagne
fabricant	Domus
concepteur	Stefan Wehrmann
année	2009
protection	IP20
Contenu de la livraison	Leuchtmittel/ Bulb
aptitude de tension	110 - 240 Volt
Projection en cm	18
matériel	bois, Lunopal, Textile
atténuation	dimmerable sur place
base/version	E27
Puissance (max. Watt)	75 Watt
couleur de l'abat-jour	blanc
Dimensions	H 30 cm B 16 cm

Description

A single strip of Lunopal, intertwined twice, creates an airy, light structure. Open at the bottom and top, the lamp casts a charming play of light and shadow on the wall. Lunopal is a high-quality shade material developed by Domus. This material is thermally highly resilient and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The environmentally friendly material is UV-resistant, washable and does not yellow. The real wood wall bracket of the Domus Julii is optionally available in beech, maron-oil or white lacquer. This lamp is 30 cm high, 16 cm wide and has a projection of 18 cm. This wall lamp has an E27 socket and can be operated with conventional halogen bulbs as well as with LED retrofit bulbs.
