### Description

The lamp shade of the Domus Kioto 2 is divided into 2 fields and is surrounded by a wooden frame made of beech. Domus has developed Lunopal, the white transparent material of the lamp shade, especially for its lamp shades. It is environmentally friendly, thermally resistant and does not fade. The Kioto 2 is 36 cm long and wide. Its height is 8 cm. This lamp can be used for surface or recessed mounting. It is operated with a power-efficient, dimmable LED and has a colour temperature of 3,000 Kelvin warm white. As an accessory for this ceiling and wall lamp, there is available a covering frame made of beech, which can be used to cover the metal bracket of the lamp.
