

Knapstein

TESSA-S-Flex

Oberfläche

- nickel
- noir
- anthracite
- bronze

Technical details

Pays de fabrication	 Allemagne
fabricant	Knapstein
année	2024
Projection en cm	56
matériel	Acryl, Steel
lampe pied	Ø22 cm
atténuation	controle gestuel
Puissance en Watt	17 W
LED #	inclus
Indice de rendu des couleurs	>90
Flux lumineux en lm	1904
La température de couleur en Kelvin	2.200-3.500
protection	IP20
Contenu de la livraison	LED
aptitude de tension	230 - 240 Volt
Dimensions	H 130 cm

Description

The Knapstein TESSA-S-Flex LED reading lamp is equipped with a sensor dimmer that can be used to switch the lamp, dim it continuously and change the light colour. The sensor is located on the underside of the light source. Simply swipe the sensor to switch the TESSA-S-Flex reading light on or off. The light colour of the lamp can be adjusted to a warmer tone (from a colour temperature of 3,500 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved using the memory function and automatically reset the next time the light is switched on. This flexibly adjustable reading light has a prismatic cover and produces a virtually loss-free and glare-free light emission. The Knapstein TESSA-S-Flex is available in various surfaces. The fabric-coated flexible tube of the anthracite-coloured lamp is grey. The fabric-coated flexible tube of the lamp in nickel is red, the flexible tube of the lamp in black and bronze is both black.
