### Omschrijving

The Anglepoise Original 1227 Maxi Pendant emits light directly downwards. The pendant lamp has a steel shade with a diameter of 29 cm. The height of the lamp is 30 cm. The industrial designer George Carwardine designed the shape of this lamp shade for the first Anglepoise lamps as early as the 1930s. This pendant lamp is available in jet black. Both the lamp shade as well as the canopy are glossy lacquered. The canopy is made of steel and has a diameter of 10 cm at a height of 6 cm. The cable of the lamp is max. 150 cm long and can be shortened if necessary. The light can be dimmed by the customer and can be operated with LED retrofits or compact fluorescent lamps.
