Omschrijving

The Anglepoise Type 75 Desk Lamp has flexible lamp arms. These can be readjusted at any time using tension spring technology. This technology was developed in 1935 by George Carwadine for the British manufacturer and is still used in many lamps today. The Type 75 Desk Lamp also has a tiltable and rotatable lamp shade. The table lamp is available in the surfaces jet black, alpine white, slate grey and silver lustre. The lamp arms as well as the lamp shade are made of aluminum, the lamp base is made of cast iron with an aluminum cover. The on/off switch is integrated on the lamp head. The table lamp can be operated with LED retrofit lamps or compact fluorescent lamps.
