### Omschrijving

Die Stilnovo Tablet P2 is a rectangular, minimalist double pendant lamp with two independent swivelling modules. Available in white or black surfaces, each of the two straight aluminum bodies frames a module of the same material that can be swivelled 350°. With LED source shielded from a polycarbonate diffuser, so you can choose the orientation of the light, direct or indirect. The two rectangular pendants can create configurations that can be customised in height and reciprocal position (parallel or crossed). Steel cables also act as conductors, for an even more minimal aesthetic. The pendant lamp can be dimmed by the customer and is dimmable by an optional Casambi module via smartphone.
