Omschrijving

The Stilnovo Quad P3 is a designer lamp characterized by modular simplicity. A plastic structure, the three square shapes of this pendant lamp fit together like die-cast aluminum links. The LED sources emit indirect light that softly illuminates the ceiling and spreads into the surrounding space. Designed by Pio and Tito Toso, it is perfect for large lighting points, alone or combined with other installations of the same family. This pendant lamp can be dimmed by the customer, with an optionally available Casambi module it can also be dimmed via Smartphone App.
