Omschrijving

The Marset Mercer 44 pendant lamp has a diameter of 44 cm and a height of 29 cm. It consists of a transparent, mouth-blown glass cylinder in which a textile shade made of cotton is integrated. The inner textile shade is available in natural cotton ribbon and pearl white. The light is emitted from this lamp glare-free to the sides and upwards as well as downwards. On the bottom side of the lamp there is an opal diffuser which reduces glare from the downward directed light. The cables with a maximum length of 200 cm can be shortened if required. Suitable light sources for the Mercer 44 pendant lamp are LED retrofit lamps.
