Omschrijving

The lamp shade of the Bover Dome 60 LED pendant lamp in beech veneer has a diameter of 60 cm and is 38 cm high. The shade of this lamp is made of more than 170 small and large wood fragments. The light is emitted directly downwards but also diffusely, through the gaps in the mesh of the lampshade, and simultaneously distributed to the sides. The Bover Dome 60 is available with a white suspension. This lamp can be infinitely adjusted in height between 90 cm and 300 cm in one easy step. By means of a phase dimmer (TRIAC), the Bover 60 LED pendant lamp can be dimmed on site. The lamp is available with a 12.5 watt (Version Dome 60/01) LED or a 25 watt (Version Dome 60/02) LED. Both LED versions have a colour temperature of 2,700 Kelvin (extra warm white).
