### Omschrijving

The Secto Design Octo Small 4241 pendant lamp is handcrafted from Finnish birch wood. It emits light mainly through the opening at the lower end of the lamp shade. At the same time, part of the light passes between the wooden slats of the shade. The Octo Small 4241 has a diameter of 45 cm and a height of 55 cm. It is available with white or black laminated surfaces, in natural birch or with walnut veneer. Here it is offered in white. The pendant lamp is operated with an LED retrofit. The supplied cable has a standard length of 150 cm. All versions except the black one have a white cable and canopy, the black version has a black cable and canopy.
