### Omschrijving

The Mawa One Piece 8 is a wall lamp with a width of 31 cm. Its depth is 16.5 cm. It emits its light upwards to the ceiling and to the wall behind it. The homogeneous ceiling illumination also reaches deep into the room. The ceiling floodlight is available in the powder-coated surfaces white matt, dark bronze and DB702 grey-metallic. It is manufactured from a single piece of aluminum using the folding technique. The One Piece 8 is operated with an integrated LED, which has a colour temperature of 2700 Kelvin extra warm white. On request, the lamp is also available with a colour temperature of 3,000 Kelvin warm white or 4,000 Kelvin white. As standard, the wall light is dimmable on site with a trailing edge phase dimmer. A DALI, 1-10 Volt or Push dimmable version is also available on request.
