<b>luifel Dimensions</b>	12 cm
<b>Schaduw diameter</b>	9 cm
<b>schermhoogte</b>	12 cm
<b>bulb vervangen:</b>	bij de fabrikant / fabriek
<b>Totale lichtstroom in lm</b>	2.604
<b>lichtverdeling</b>	licht in de kamer
<b>Plafond rail lengte</b>	140 cm
<b>totale hoogte</b>	54 cm

### Omschrijving

The Drip Linear PF/07L from the Spanish lighting manufacturer Bover is an LED pendant lamp with seven individual pendants mounted on a black 140 cm long aluminium ceiling rail. The distance between the individual pendants is 20 cm. The power connection is located on a decentralised canopy with a diameter of 12 cm. The glass of the Bover Drip Linear PF/07L made of borosilicate glass can be removed for replacement or cleaning. The seven lamp shades made of borosilicate glass each have a diameter of 8.5 cm and are 12 cm high. This LED pendant lamp is available in the shade colours transparent, matt white, opal, green and blue. The distance between the ceiling and the lower edge of the individual pendant lamps is 54 cm. 13 different cable lengths are available on request. You can therefore choose the length of your lamp to suit your individual requirements. When ordering, please specify the required length/distance between the ceiling and the lower edge of the lamp under the item Order overview in the Order comments field.
