### Omschrijving

The Knapstein SVEA-D is a ring-shaped pendant lamp with a diameter of 60 cm and is suspended by three wires. It emits its light both upwards and downwards. The pendant lamp is in matt nickel. The total height of the lamp can be set once between 20 cm and 60 cm. For final height adjustment, all stop sleeves on the underside of the ceiling canopy are pressed in, after which the wires can be pushed or pulled to the desired height. The SVEA-D is dimmable on site with a trailing edge phase dimmer. Pendant lamps with gesture control are also available from the series. The SVEA-L40 and L60 are also offered, which can be continuously adjusted in their overall height by pulling or lifting the lamp rope.
