## **Omschrijving**

The Knapstein ALVA floor lamp has a cylindrical, swivelling lamp shade that can be realigned at any time. The shade is made of chintz and has a diameter of 35 cm. The height of the shade is 40 cm. The lamp has a total height of 149 cm and is available in effect bronze, black and matt nickel-plated. The bronze version is supplied with a shade in white and the black version with a shade in foggy grey. The nickel-plated version has a shade in spruce blue. Other combinations of surface finishes and shade colours are offered on request. The ALVA floor lamp emits light without glare through the shade into the room as well as downwards and upwards. The Knapstein lamp has an E27 socket which can be operated with LED retrofit lamps. A dimmer for switching and dimming is integrated on the supply line. The lamp is switched on or off by briefly pressing the dimmer. By pressing and holding it for longer, it can be dimmed up or down.
