### Omschrijving

The Knapstein BANU-G is a wall lamp with a flexible reading arm that can be realigned at any time. The reading arm has a maximum projection of 52.5 cm. The lamp head is made of white satinised lead crystal glass. The light is emitted directly downwards and sideways into the room. The BANU-G is available in matt nickel and chrome finishes. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as the light source. An on/off switch is located at the top of the wall bracket. The BANU wall lamp with a brass lamp head is also offered from the series.
