### Omschrijving

The B.Lux Speers F floor lamp has two lamp rods of different heights, each with an individually adjustable lamp head. One lamp rod is 220 cm high, the other 150 cm. The lamp rods can be tilted separately from each other and the lamp heads can be swivelled individually. The two lamp heads can be switched separately via a switch on the supply cable. LEDs are integrated as light sources. Glass lenses focus the light and increase the lighting efficiency.

The Speers F floor lamp is available in white and black. Both surfaces are matt textured. The lamp shades of the white lamp are in satin brass on the inside, the shades of the black lamp inside in satin copper. A version that can be dimmed with a Casambi module by smartphone via Bluetooth is also available on request.
