Omschrijving

The Bover Mediterrania S/105 Outdoor pendant light has a curved lamp shade made of a hand-woven, synthetic polyethylene fibre. The synthetic polyethylene fibre is so resistant and weatherproof that this lamp is also suitable as an outdoor lamp. With a protection rating of IP66, the pendant lamp is dustproof and protected against strong jets of water. The light is emitted glare-free downwards and sideways through a diffuser made of polycarbonate. Through the structure of the hand-woven lamp shade, the light also penetrates to the side and upwards.

For the Mediterrania S/105 Outdoor, both the lamp shade and the ceiling canopy are in brown. The lamp shade has a diameter of 105 cm. In total, the shade of this lamp is 12.3 cm high. The lamp is suspended via thin steel tension cables that can be shortened if necessary. Its maximum total height is 216.5 cm. This lamp is operated with an integrated LED that has a colour temperature of 2,700 Kelvin extra warm white. The LED can be dimmed on site with a trailing edge phase dimmer. Lamps that are DALI or 1-10 volt dimmable are also available on request. The Mediterrania lamp by Bover is an ode to the Mediterranean light, the breeze and the scent of the Mediterranean.
