Omschrijving

The lamp shade of the Domus LARAFelt Pendant Lamp M indigo has a diameter of 43 cm and is 11 cm high. During installation, the pendant lamp can be individually suspended in the total height. The pendant lamp emits its light mainly downwards, upwards it is mostly dimmed.

The lamp shade of this LARAFelt Pendant Lamp M is covered with indigo coloured wool felt. From the inside, the lamp shade is cinnamon coloured. The view into the inside of the lamp is particularly beautiful, where the wool felt is shown to advantage by the low diffuser. The LARAFelt series also includes pendant lamps with a lamp shade in grey felt (different inner shade colours available) or red felt (inner shade colour wool white).

The LARAFelt Pendant Lamp M is operated with a dimmable, powerful LED that has a colour temperature of 2,700 Kelvin extra warm white. The integrated LED is characterised by very good colour rendering with a high colour rendering index of Ra > 92. The pendant lamp is also offered by Domus with a diameter of 20 cm or 55 cm.
