

Knapstein

ZERA-1 with prism cover

Oberfläche

- nikkel
- zwart
- bronzen

Technical details

Land van fabricage	 Duitsland
fabrikant	Knapstein
jaar	2024
materiaal	Acryl, Metaal
hoogteverstelling	hoogte verstelbaar
dimmen	gebarencontrole
Wattage	2x12 W
LED #	inclusief
Kleurweergave-index	>90
Lichtstroom in lm	2548
Kleurtemperatuur in Kelvin	Dim to warm
bescherming	IP20
Omvang van de levering	LED
voltage geschiktheid	230 - 240 Volt
baldakijn	Ø 16 cm
lampkop massa	14 cm
totale hoogte	70 - 170 cm

Omschrijving

The Knapstein ZERA-1 is characterised by its exceptional functionality. The LED pendant lamp emits light upwards and downwards at the same time. The uplight and downlight can be switched and dimmed separately using gesture control (Knapstein Dynamic White). The light colour can be adjusted separately for the uplight and downlight to a warmer tone (from a colour temperature of 3,000 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved using the memory function and automatically reset the next time the light is switched on. The Knapstein ZERA-1 has a synchronisation function for adjusting the light intensity and light colour of all light sources on one side of the lamp. The Knapstein ZERA-1 is switched on or off with a swiping movement of the hand in the sensor area. To change the light intensity, the hand is held longer in the sensor area. The desired light colour can then be set by holding the hand in the sensor area for a longer period again. The lamp body of the lamp has a prismatic cover and produces an almost loss-free and glare-free light emission. The height of the lamp can be infinitely adjusted from approx. 70 cm to 170 cm using the built-in lift height adjustment. Thanks to two lifts per lamp body, the individual elements can be precisely positioned in height - even on sloping ceilings. The ceiling canopy of the Knapstein ZERA-1 LED pendant lamp has a magnetic holder, so no external screw connections are visible. This pendant lamp is available in different surfaces.
