Opis

The Byok Squadrina Table Clamp impresses with functionality and design. It is characterized by the stringent form and the puristic appearance. The Squadrina table lamp is very flexible by rotating and tilting the ankle and the upper universal joint. In addition, the upper aluminum profile can be rotated around its own axis. The table light is equipped with two LEDs, which are dimmed with gesture control. During dimming, the light takes on a warmer colour, changing the light colour of the LEDs from 2,700 Kelvin extra warm white to 2,100 Kelvin extra warm white.

The Squadrina Table Clamp is available in these surfaces: aluminum matt, aluminum polished, white matt powdered and matt black. The Squadrina is also available with a table base as well as in smaller version (Squadrina Pico).
