### Opis

The Byok Nastrino with Table Clamp is a table lamp, mainly characterised by its functionality. High-quality LED technics combined with two dazzle-free light zones, create the ideal working light. This is underlined by the well-thought-out joint technics used with the Nastrino Table Clamp.

The design is very convincing as well, because this lamp consists of simple ground aluminium profiles. The Byok Nastrino Table Clamp is available either in aluminum matt and black matt surfaces. Byok offers this lamp with a table stand, an USM-adapter and a wall fix as well. This lamp is dimmed with gesture control. During dimming thanks to the Dim2Warm technology, the light takes on a warmer colour, changing the light colour of the LEDs from 2,700 Kelvin extra warm white to 2,100 Kelvin warm white.
