Opis

The Catellani & Smith Gemma Tavolo is a table lamp of a special kind, because instead of a light bulb this lamp illuminates with a wax candle. Therefore, it is also a candle holder, which is put on the table. The candle is just as included as a wax catcher, which catches the down running wax. The candle of this table lamp emits its light to a reflector shade in the form of a disc. This reflector has a diameter of 30 cm and stands on a base made of waxed iron in Black. For the reflector disc three surfaces are on offer: gold leaf, copper and silver leaf.

The lamp with a height of 18.5 cm is mounted on a square plate with each 14.5 cm length and width. The candle can be naturally replaced.
