Opis

The Luceplan Garbí is a wall lamp with a curved lamp shade. When the lamp is switched on, the light is emitted indirectly to the wall behind the lamp and also through an oval opening on the front of the lamp, downwards on the wall. The Garbí Wall has a lamp shade of aluminum which is coated with a matt white powder coating.

The wall light was designed by David Dolcini in the year 2016 and can be dimmed on site by an trailing edge dimmer. It includes an LED with 34 watts. The wall lamp has a colour temperature of 2,700 Kelvin extra warm white.
