### Opis

The Nyta Tilt Wall Short is a wall lamp with a lamp shade made of matt lacquered aluminum. The shade can be completely rotated once around its own axis, so that the lamp can be readjusted again and again. The wall lamp is available with a shade in white, black and grey. The wall bracket is always in the matching surface to the shade. The wall light is installed directly on the power outlet, on request it is also supplied with cable and plug. The cable colours white, black, grey, red, light blue and light green are optionally offered. The on/off switch is integrated on the wall bracket. LED retrofit or halogen lamps can be used as light sources.
