Opis

The Cini & Nils Assolo wall and ceiling lamp can be mounted vertically, horizontally or in a row. Its ring has a diameter of 20 cm. The light is emitted by an integrated LED on the inside and reflected from there, thus indirectly illuminating both the lamp itself and the surroundings. This creates a play of light and shadow on the wall or ceiling. The lamp is available in white, black and gold matt. The Assolo wall and ceiling lamp is offered in two versions: non-dimmable and dimmable on site with a trailing edge phase dimmer. The on site dimmable version can also be dimmed with an optionally available Casambi module using a smartphone/tablet via Bluetooth. An LED with a colour temperature of 2,800 Kelvin warm white is included as a light source. On request, this lamp is also available with a round wall plate with a diameter of 9.2 cm, which can be used to cover flush boxes.
