Opis

The Serien Lighting Curling Suspension Tube new silver S has a shade diameter of 18 cm high and a height of 6 cm. This pendant lamp is suspended from the ceiling with a chrome-plated steel tube; the total height of the lamp can be individually set during installation.

The Curling Suspension Tube new silver S is available in three versions: with a colour temperature of 2,700 Kelvin extra warm white, 3,000 Kelvin warm white or with dim to warm function. The lamp with dim to warm function imitates the dimming behaviour of classic incandescent lamps, which is perceived as pleasant. When dimmed down, the light not only becomes darker but also changes its colour temperature. The colour temperature changes from 1,800 Kelvin extra warm white to 3,000 Kelvin warm white when dimmed. In addition to this lamp, a smaller lamp with a shade diameter of 18 cm is also available from the Curling series.
