## Opis

The Knapstein DINA-T is a table lamp with a rotating and tilting lamp head. It can be tilted at will by means of a ball joint at the base of the lamp. With a maximum inclination the table lamp has a projection of 55 cm. The DINA-T can be switched and continuously dimmed by gesture control. The sensor for gesture control is located on the lamp head. The lamp can be switched on or off with a wiping movement of the hand. The lamp is dimmed by holding the hand in the sensor area for longer periods. A memory function saves the last light intensity setting and automatically sets it again the next time the lamp is switched on. In the event of a power failure, the lamp switches on automatically if it was previously switched on. It remains switched off if it was previously switched off. The Knapstein lamp is available in matt nickel, effect bronze and chrome. An LED with a colour temperature of 2,700 Kelvin extra warm white is integrated as the light source.
