Opis

The Knapstein NELE-T is a table lamp with a swivel and tilt joint on the lamp head. This means that the lamp head can be realigned at any time. In addition, the lamp can be swivelled and rotated as required via joints on the lamp arm and base. The maximum projection of the lamp is 60 cm. The NELE-T from Knapstein is available in matt brass, and matt nickel-plated surfaces. The table lamp can be switched and dimmed via a push button dimmer on the base of the lamp. With a memory function, the last set light intensity is saved and automatically set again the next time the lamp is switched on. In the event of a power failure, the lamp switches on automatically if it was previously switched on. It remains switched off if it was previously switched off. This function is suitable for use with switchable sockets. Four LEDs with a colour temperature of 2,700 Kelvin extra warm white each are included.
