### Opis

The Grupa Arigato Floor Double is a floor lamp with two jointed arms that can be aligned independently of each other. The lamp shades can each be rotated by 360 degrees and swivelled by 125 degrees. The lamp has a total height of 110 cm. The lamp rod and the joint arms are made of steel. The lamp shades are made of aluminum. On the supply line is an integrated on/off switch. At the bottom of the lamp shades, a diffuser is integrated so that the light is emitted glare-free downwards. The Arigato Floor Double is available in the surfaces black or white matt powder-coated. Other finishes are also offered on request. E27 halogen lamps or LED retrofit lamps are suitable as light sources.
