Opis

The Domus Loop is a floor lamp with a twisted, white lampshade made of Lunopal. Lunopal is a high-quality shade material that was developed by Domus. This material is thermally highly resilient and can withstand temperatures of up to 100°C. Lunopal is white transparent and gives the impression of fine Japanese paper. The environmentally friendly material is UV-resistant, washable and does not yellow. The lampshade of the lamp can be turned into different positions and shapes and thus serves as an ideal glare-free reading light. The design elements on the lampshade as well as the lamp base are available in the surfaces walnut, beech, aluminium and oak. The lamp rod of the Loop floor lamp is made of aluminium in all versions. This floor lamp has a foot switch on the supply line. The 150 cm high lamp has an E27 socket and can be operated with all standard lamps (halogen, energy-saving lamps or LED). The white lampshade of the Domus Loop has a diameter of 19 cm.
