Opis

The Betec Clarus picture light has a lamp head that can be rotated around its own axis. In this way, it can be realigned as needed to illuminate and highlight a picture without glare. This lamp head makes the lamp ideal for illuminating pictures, menus and music stands. The high constant light output with low power consumption and extremely long service life are ideal prerequisites for modern picture lighting. The lamp offered here is 106 cm long and has a projection of 22 cm (bracket type 22).

The Betec Clarus 106 cm is offered in the surfaces brass glossy, brass matt, chrome, nickel glossy, nickel matt, burnished, black matt, gold glossy and gold matt. The scope of delivery includes a mounting set with which the lamp can be easily attached directly to a picture or to the wall. As standard, the picture light has a colour temperature of 2,700 Kelvin extra warm white. On request, it is also available with 2,400 Kelvin extra warm white, 3,000 Kelvin warm white or 3,100 Kelvin white. The integrated, dimmable LED is characterised by very good colour rendering with a high colour rendering index of Ra >90. A touch dimmer is offered as an accessory, with which the lamp can be switched and dimmed by touch. The Clarus lamp is offered by the manufacturer Betec in ten other lengths and with a projection of 11 cm or 17 cm.
