### Opis

The Domus LARAFelt Pendant Lamp M red can be individually suspended in the total height during assembly. The light is mainly distributed downwards, upwards it is mostly dimmed. The LARAFelt Pendant Lamp M has a lamp shade that is covered with red wool felt. From the inside, the lamp shade is in wool white. The view into the inside of the lamp is particularly beautiful, where the wool felt is shown to advantage by the low diffuser. The LARAFelt series also includes pendant lamps with a lamp shade in grey felt (different shade inner colours available) or indigo coloured felt (shade inner colour cinnamon).

As illuminant, the LARAFelt Pendant Lamp M has a dimmable, powerful LED with a colour temperature of 2,700 Kelvin extra warm white. The integrated LED is characterised by a very good colour rendering with a high colour rendering index of Ra > 92. The lamp shade of the pendant lamp has a diameter of 43 cm and is 11 cm high. The LARAFelt Pendant Lamp is also available with a diameter of 20 cm or 55 cm.
