

Knapstein

ZERA-3 with prism cover

Oberfläche

- nikiel
- czarny
- brąz

Technical details

Kraj produkcji	 Niemcy
producent	Knapstein
rok	2024
tworzywo	Acryl, Metall
regulacja wysokości	z regulacją wysokości
ściemnianie	kontrola gestow
Moc w watach	6x12 W
LED #	włącznie
Wskaźnik oddawania barw	>90
Strumień świetlny w lm	7644
Temperatura barwowa w stopniach Kelvina	Dim to warm
ochrona	IP20
zakres dostawy	LED
napięcie przydatność	230 - 240 Volt
baldachim	120 x 5,5 x 5,5 cm
Dimensions	L 120 cm

Opis

The Knapstein ZERA-3 is characterised by its exceptional functionality. The LED pendant lamp emits its light upwards and downwards at the same time. Using gesture control (Knapstein Dynamic White), the uplight and downlight of the three luminaire bodies can be switched and dimmed separately. The light colour can be adjusted separately for the uplight and downlight to a warmer tone (from a colour temperature of 3,000 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved using the memory function and automatically reset the next time the light is switched on. The Knapstein ZERA-3 has a synchronisation function (master/follower light control) for adjusting the light intensity and light colour of all light sources on one side of the luminaire. Once the lamps have been set via the master reflector, the follower reflectors can also be set individually and independently of the master setting using the separate gesture control. The Knapstein ZERA-3 is switched on or off with a swiping hand movement in the sensor area of one of the three luminaire bodies. To change the light intensity, the hand is held longer in the sensor area. The desired light colour can then be set by holding the hand in the sensor area for a longer period again. The three lamp bodies of the lamp have a prismatic cover and produce an almost loss-free and glare-free light emission. With the built-in lift height adjustment, the luminaire height can be continuously adjusted from approx. 70 cm - 170 cm. Thanks to two lifts per luminaire body, the individual luminaire bodies can be precisely positioned in height - even on sloping ceilings. The ceiling canopy of the Knapstein ZERA-3 LED pendant lamp has a magnetic holder, so no external screw connections are visible. This pendant light is available in different surfaces.
