

Knapstein

ZERA-3 with acrylic cover

Oberfläche

- nikiel
- czarny
- brąz

Technical details

Kraj produkcji	 Niemcy
producent	Knapstein
rok	2024
tworzywo	Acryl, Metall
regulacja wysokości	z regulacją wysokości
ściemnianie	kontrola gestów
Moc w watach	6x12 W
LED #	włącznie
Wskaźnik oddawania barw	>90
Strumień świetlny w lm	7644
Temperatura barwowa w stopniach Kelvina	2.200-3.000
ochrona	IP20
zakres dostawy	LED
napięcie przydatność	230 - 240 Volt
baldachim	120 x 5,5 x 5,5 cm
Dimensions	L 120 cm

Opis

The Knapstein ZERA-3 is characterised by its exceptional functionality. The LED pendant lamp emits its light upwards and downwards at the same time. Using gesture control (Knapstein Dynamic White), the uplight and downlight of the three lamp bodies can be switched and dimmed separately. The light colour can be adjusted separately for the uplight and downlight to a warmer tone (from a colour temperature of 3,000 Kelvin warm white to 2,200 Kelvin extra warm white). All dimming and light colour settings are saved using the memory function and automatically reset the next time the light is switched on. The Knapstein ZERA-3 has a synchronisation function (master/follower light control) for adjusting the light intensity and light colour of all light sources on one side of the lamp. Once the lamps have been set via the master reflector, the follower reflectors can also be set individually and independently of the master setting using the separate gesture control. The Knapstein ZERA-3 is switched on or off with a swiping hand movement in the sensor area of one of the three lamp bodies. To change the light intensity, the hand is held longer in the sensor area. The desired light colour can then be set by holding the hand in the sensor area for a longer period again. The three lamp bodies of the light have a white acrylic cover with a visible edge at the side. The height of the light can be continuously adjusted from approx. 70 cm to 170 cm using the built-in lift height adjustment. Thanks to two lifts per lamp body, the individual lamp bodies can be precisely positioned in height - even on sloping ceilings. The ceiling canopy of the Knapstein ZERA-3 LED pendant lamp has a magnetic holder, so no external screw connections are visible. This pendant lamp is available in different surfaces.
